

TABLE OF CONTENTS

Introduction

1. Machine Learning	1
2. Classification	2
3. Data Sets Used	2
3.1. Iris Flower Dataset	2
3.2. MNIST Dataset	3

Part I – Logistic Regression

1. Basics of Logistic Regression	4
2. Mathematical Description	4
3. Training the Model	5
3.1. What is Training	5
3.2. Cost Function	5
3.3. Gradient Descent	6
3.4. GD applied to Logistic Regression	6
4. One vs. Rest approach to classification	7
5. Experiment 1	8
6. Experiment 2	11

Part II - Neural Networks

1. Basics of Neural Networks	16
2. Functioning of Neural Networks	17
2.1. Vectorization	17
2.2. Notations for this section	18
2.3. Forward Propagation	18
2.4. Cost Function and Optimization	18
2.5. Backpropagation Algorithm	19
2.6. One-Hot Coding	19
2.7. Stochastic Gradient Descent	19
3. Experiment 1	20
4. Experiment 2	24
